

Haringey Climate Rally

11am Saturday 6 November 2021

Crescent Gardens N22 (opp Haringey Civic Centre)

on Global Day of Action for Climate Justice

As world leaders meet in Glasgow for climate talks, let's send them a clear message:

We need a future that works for ALL of us! ACT NOW!

- As wildfires, floods and extreme heatwaves hit Germany, Greece, Italy and Turkey, we can see at close hand how the global climate emergency is growing more acute.
- It is people in the Global South – who have done the least to cause climate breakdown – that are the ones to endure the worst of its effects.
- At a local level, it is people of colour and those living in poverty who disproportionately suffer from the impacts of air pollution and climate change.

Join us in asking both local leaders and world leaders to put justice and equity at the heart of their response to the climate emergency.

Speakers will include:

- David Lammy MP for Tottenham
- Councillor Mike Hakata, Cabinet Member for Climate Change
- A school climate striker
- A speaker from the Global South on the impacts of climate change now

The event will end at around 12 noon. Those who wish can then travel into central London and join a larger demonstration at from Trafalgar Square to the Bank of England moving off at 1pm.

Supported by: COP26 coalition; Extinction Rebellion; Friends of the Earth (Tottenham & Wood Green, Muswell Hill & Hornsey groups); Haringey Climate Forum; Haringey Cyclists; Haringey Labour Climate Action; Muswell Hill Sustainability Group; Sustainable Haringey.
