

# Welcome

## Mike Hakata

Councillor for Hermitage & Gardens Ward, Haringey. Deputy Leader & Cabinet Member for Climate Action, Environment & Transport

The Big Green Week festival is the next instalment of the Go Green team's mission to highlight environmental initiatives, share ideas and galvanise Climate action following their hugely successful series of events during London Climate Action Week earlier this Summer. Exploring energy production and efficiency, healthy eating, living and active travel, sustainable shopping and recycling and waste reduction and so much more, with discussions, presentations and events from many organisations and local groups this will prove to be the biggest festival yet. I am pleased that officers at the heart of the Council's carbon and energy teams will be contributing.
