

Climate Action Unit

Zoe Robertson – Head of Place (Environment & Resident Experience)

15 February 2024

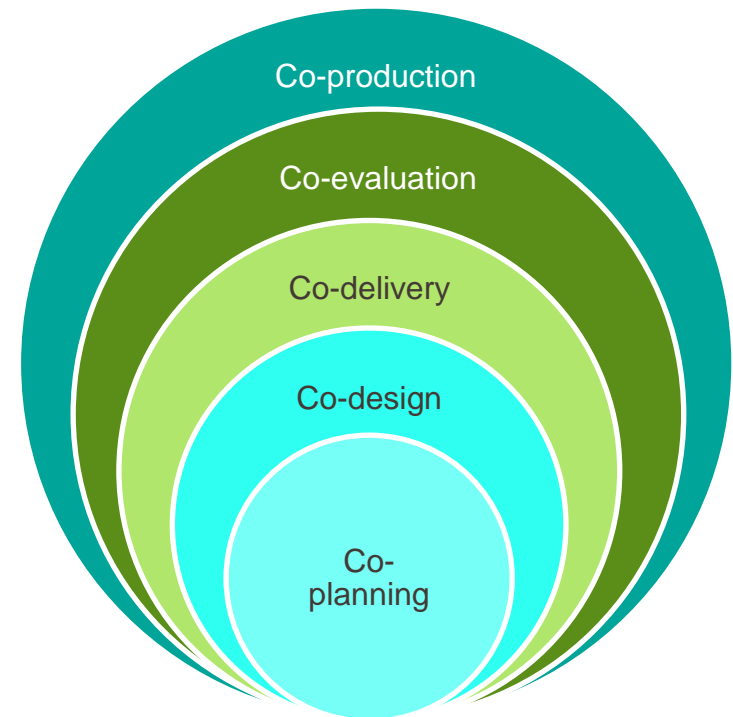

Co-production basics

- People with lived experience, decision makers and service providers work together to co-create decisions or services which work as well as it can for all.
- Working co-productively always embeds principles of:
 - ✓ Accessibility
 - ✓ Diversity
 - ✓ Equality
 - ✓ Reciprocity

Co-production is a process which should include some of these stages:

- co-planning
- co-design
- co-delivery
- co-evaluation of the product and process

Haringey Climate Partnership

- First Haringey Climate Partnership – early March (5th TBC)
- Initially online – future meetings could be in person
- Redesign of council’s climate webpages underway
 - More engaging
 - More calls to action
 - Easier to find
 - Information about the Partnership
- Comms campaign to support the Partnership’s launch
 - Use existing networks
 - Socials, website, Haringey People Xtra
- Aim of first meeting –
 - Raising awareness of climate emergency and council’s response
 - Call to get involved with climate related projects
 - Bring ideas!

Key Messaging for the Partnership

Create a greener future in

Haringey: your community know-how, combined with our commitment to action, equals real change. Sign up for Haringey Climate Partnership and be a key player in making a difference for your community.

Curious about our roadmap for a greener Haringey? Sign up for Haringey Climate Partnership to find out how we are working with you to achieve our common goals, making our borough fairer and more sustainable.
